

How to Run OUTFIT.exe

Repository: [ParaGroup/OUTFIT](#)

1. Download & Extract

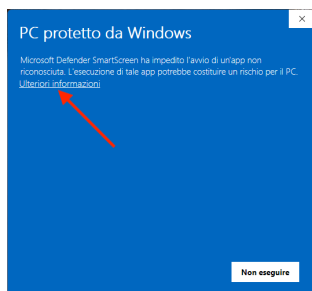

- Download [OUTFIT.zip](#)
- Unzip the file

2. Prepare Data

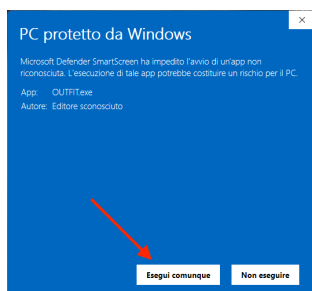

- Get the `your_city.csv` file from the repo's `data` folder (or your own GIS data)
- Place `your_city.csv` in the same folder as `OUTFIT.exe`

3. Run the App

- Open `OUTFIT.exe`
- If Windows blocks it:
 - Click **More Info**

- Then click **Run Anyway**

4. Fill Required Fields

- **API Key** → your Google API key
- **Prefix** → name to identify your dataset
- **Data** → path to `your_city.csv`
- **Date Range** → time span for data collection
- **Interval** → minutes between API calls

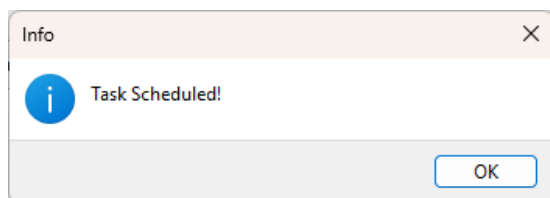

The OUTFIT application window contains the following fields and controls:

- API KEY**: A text input field.
- Prefix**: A text input field containing "pisa".
- Data**: A text input field containing "C:\Users\user\Downloads\OUTFIT\pisa.csv" and a "Browse" button.
- Date Range**: Two date pickers. The first is set to "01/09/2025" and the second to "07/09/2025".
- Interval (minutes)**: A slider control ranging from 1 to 60, currently set to 5.
- Table**: A table with 5 columns: `osm_id`, `name`, `highway`, `z_order`, and a JSON string. It lists 17 streets in Pisa.
- Buttons**: "Start Schedule" and "Remove Schedules".

	osm_id	name	highway	z_order	
1	1	Via Silvestro Centofanti	tertiary	3	"maxspeed"=>"50","oneway"=>"yes","surface"=>"asphalt"
2	2	Via Giuseppe Garibaldi	tertiary	4	"cycleway"=>"no","maxspeed"=>"50","oneway"=>"no","surface"=>"asphalt"
3	3	Via Pietro Nenni	secondary	6	"lanes"=>"2","lanes:forward"=>"2","maxspeed"=>"50","oneway"=>"yes","surface"=>"asphalt"
4	4	Via Pietro Nenni	secondary	6	"lanes"=>"2","lanes:forward"=>"2","maxspeed"=>"50","oneway"=>"yes","surface"=>"asphalt"
5	5	Via Vittorio Veneto	secondary	6	"maxspeed"=>"50","oneway"=>"yes","surface"=>"asphalt"
6	6	Largo Concetto Marchesi	residential	3	"lit"=>"yes","maxspeed"=>"50","surface"=>"asphalt"
7	7	Lungarno Bruno Buozzi	tertiary	4	"lanes"=>"1","maxspeed"=>"50","oneway"=>"yes","sidewalk:left"=>"yes","sidewalk:right"=>"separate"
8	8	Via Vincenzo Gioberti	residential	3	"name:etymology:wikidata"=>"Q378706","oneway"=>"yes","surface"=>"asphalt"
9	9	Via Lucchese	tertiary	4	"cycleway:both"=>"no","lane:markings"=>"no","sidewalk:left"=>"separate","sidewalk:right"=>"yes","si
10	10	Via Alessandro Volpi	secondary	6	"lanes"=>"3","lanes:backward"=>"1","lanes:forward"=>"2","maxspeed"=>"50","sidewalk"=>"both","sur
11	11	Via Alessandro Volpi	secondary	6	"cycleway:right"=>"no","lanes"=>"2","oneway"=>"yes","surface"=>"asphalt"
12	12	Via Alessandro Volpi	secondary	6	"cycleway:right"=>"no","lanes"=>"2","oneway"=>"yes","surface"=>"asphalt"
13	13	Via Lucchese	tertiary	4	"oneway"=>"yes","sidewalk:right"=>"separate","surface"=>"asphalt"
14	14	Via Gino Luzzato	secondary	6	"lanes"=>"2","lanes:forward"=>"2","maxspeed"=>"50","name:etymology:wikidata"=>"Q1424404","one
15	15	Via Gino Luzzato	secondary	6	"lanes"=>"2","lanes:forward"=>"2","maxspeed"=>"50","name:etymology:wikidata"=>"Q1424404","one
16	16	Via Mahatma Gandhi	secondary	4	"lanes"=>"2","name:etymology:wikidata"=>"Q1001","sidewalk"=>"right","surface"=>"asphalt"
17	17	Via Mahatma Gandhi	secondary	4	"lane:markings"=>"no","oneway"=>"yes","sidewalk:left"=>"no","surface"=>"asphalt"

5. Start & Verify

- Click **Start Schedule** button → you'll see *"Task Scheduled!"*

- Open **Task Scheduler Configuration Tool (Utilita' di Pianificazione)** to confirm the task has been created!

(The task will be named with the prefix **"outfit_"**, see the next image)
